

ASSEMBLY INSTRUCTIONS:

- A) Note: Side panels (item 1) can be mounted on both sides of rack or to close off ends of ganged enclosures.
- B) Turn all 1/4 fasteners (item 2) so that the cams are in the open position pointing up.
- C) Align holes in bottom of panel with pins on bottom of frame and slip onto pins.
- D) Push top of side panel into position flush with panel opening on rack.
- E) Secure by turning 1/4 turn fasteners into closed position with cams latched behind rack frame.
